Address or inquire of J. W.

From all parts of the country reports come of the immense sales and increasing demand for that deservedly popular Sewing Machine, The Old and Reliable "STANDARD," the price of which the proprietors wisely reduced to \$20 including all the attachments, and at once secured for them a popularity among the people, far beyond that attained by any other machines, and seeking territory for which is, agents are leaving the old high priced machines, and seeking territory for the "STANDARD." Knowing from experience that with the best goods at the lowest price they can outsell all other machines, where the superior quality and low price is made known. This splendid machine combines all the improvements. Is far ahead of all other in beauty and durability of its work, case of management, light running and certainty of operation, is sensibly made upon sound principles, with positive working parts all steel, and can be safely put down as the very perfection of a serviceable sewing machine, in every particular, that will outlast any machine, and at a price far sews below any other. It is thoroughly warranted for five years. Kept in order free of charge. And sent to any part of the country for examination by the customer vass this township and Huntington. COMMUNICATED. dling and Huckstering.

Last summer a petition was addresse to the Council, requesting the regulation of peddling and huckstering. The petition was referred to the Committee on ordinances, and pocketed by the Chairman during the remainder of his rom Lorain on the Lake Shore, to the term of office. The new Council Perry County coal fields, passing brought it to light, as requested by the through Oberlin, Wellington, Spencer, petitioners. One of the councilmen is Lodi, Coschocton and Wooster, was falsely charged with the origination of agitated in the fall of 1877 and a char- the petition, though he signed it when

to apply to producers and manufacturers; but the proposed ord nance itself states that it does not apply to manufacturers and producers, nor to growers of fruit, or children picking berries, or news paper peddlers; but to such as make peddling and huckstering a means of livelihood. The regulation is organized simply to bring professional peddlers to the same footing with mer in their business, requiring them to assist in the support of the enterprise of

the town. Many of the citizens infer that the or dinance is designed to favor dealers in truit and produce, requiring the producer to sell to dealers only; but it can in no way affect this case, as the grower or producer is left perfectly uninterrupted in peddling his produce about the village. But the proposed ordinance rather favors the home producer in excluding from the competition irresponsible parties who aid the town in nothing.

The object of this writing is to se the proposed ordinance plainly belore root of disease and removing its causes the citizens that they may understand the line show their interest by taking its reading and application. The writer, though the proposed regulation ing to be paid until locomotive and cars seems just and right, would cheerfully oppose it, if the majority of the citizens, nity which the people of Oberlin and after a fair undstanding of the case. think it best not to pass the ordinance. A COUNCILMAN.

MR. EDITOR:-I understand that the

"high toned" Council of this Incorporated Village of Wellington propose to pass an ordinance regulating and licensing hucksters and peddlers. In behalf of myself and a large number of the citizens, also of the poor and laboring classes of this community, I desire to enter my solemn protest-in other words "I'm agia it, tooth and toe nail." It is now over one hundred years since our ancestors threw off the yoke of English despotism, and shall we in this enlightened day of the world prove recreant to the trust bequeathed to us? Shall we allow our rights to be invaded and trampled upon by this aristocratic Town Council, who "pay no taxes" and who desire to ruin the commercial prosperity of our town-for one I say no, a thousand times no. I and the

rest of the toiling millions will arise and assert our rights; if necessary we will die in the last ditch, and when all other means have failed-when our prayers and entreaties prove of no avail-when the "town scroundels" consumate this just inequality, then

Do you ask me what are the provis-

ions of this ordinance against which I Medina has had a mad-dog sensation,a object so strongly? Well sir, I haven't seen the document as yet, in fact I think the paper is still in the hands of the Committee, and I presume the Committee have not yet decided as to the terms of the ordinance; but it is rumored that if this foul project is carried keepers will enrich themselves at the Among the burglaries mentioned by several of the Councilmen have told of the corporation by exacting from The Presbyterians of Ashland have them a small sum as license, but we now growing rich at the public crib. ple.
